PROFESSIONAL SUMMARY

Senior Full Stack Developer with 9+ years of software development experience building and maintaining web applications using Node.js, .NET MVC, React.js, and SQL Server. Experienced in developing RESTful APIs, integrating third-party services, designing database-driven applications, and delivering responsive user interfaces. Recent portfolio work includes live currency and cryptocurrency conversion platforms and an AI-powered business automation SaaS application.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, C#, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite

Backend: Node.js, Express.js, .NET MVC, RESTful APIs

Databases & Caching: Microsoft SQL Server, MySQL, Redis

Tools & Practices: Git, GitHub, Visual Studio, VS Code, Postman, Agile/Scrum, Debugging, Code Reviews

Integrations: Third-party API integration, OpenAI API, Binance REST API

PROFESSIONAL EXPERIENCE

Senior Software Developer | Skylark Infotech, Delhi | Feb 2020 – Present

• Develop and maintain scalable web applications using Node.js, .NET MVC, and React.js.

• Design and implement RESTful APIs to support reliable communication between frontend and backend systems.

• Build responsive user interfaces using React.js, HTML5, and CSS3.

• Integrate third-party APIs and services to extend application functionality.

• Work with SQL Server databases, optimize queries, and troubleshoot application performance issues.

• Collaborate with designers, product managers, and QA teams; participate in Agile ceremonies and code reviews.

Dot Net Developer | Code Diffusion Technologies, New Delhi | Jul 2017 – Jan 2020

• Developed and maintained web applications using .NET MVC and SQL Server.

• Designed database schemas and wrote SQL queries to support application workflows.

• Implemented responsive web pages and application modules to improve usability.

• Performed unit testing, peer code reviews, technical troubleshooting, and application support.

SELECTED PROJECTS

CurrenFlow – Live Currency Converter

Live: https://www.currenflow.com/ | GitHub: https://github.com/Merazul1/converter-app

Built a responsive currency-conversion application supporting 160+ world currencies and major cryptocurrencies. Implemented real-time mid-market rate calculations, instant currency swapping, quick amount presets, and copy-result functionality. Added an embeddable converter widget, FAQ content, structured data, and SEO-focused landing content. Technology: React 19, TypeScript, Vite, Tailwind CSS, localStorage.

CoinRates.live – Cryptocurrency & Fiat Converter

Live: https://www.coinrates.live/ | GitHub: https://github.com/Merazul1/crypto-converter-app

Developed a live crypto-to-fiat and fiat-to-crypto conversion platform with continuously refreshed market rates. Implemented bidirectional conversion, shareable currency-pair URLs, interactive price charts, multi-currency comparisons, Ethereum gas tracking, Fear & Greed Index display, favorites, recent pairs, and fee/slippage simulation. Technology: React 19, TypeScript, Vite, Tailwind CSS, Binance REST API, browser localStorage.

Aura Ops – AI Business Automation SaaS

Demo: https://aura-ops-fawn.vercel.app/widget/demo.html | GitHub: https://github.com/Merazul1/ai-business-saas

Built a full-stack, multi-tenant business automation platform featuring an embeddable AI chatbot, visitor lead capture, lead scoring and pipeline management, inbound email classification, automated response drafting, invoice generation, and an admin dashboard with operational KPIs. Implemented a configurable chatbot studio and PDF invoice export. Technology: React 18, Vite, Tailwind CSS, Node.js, Express, TypeScript, Microsoft SQL Server, Prisma, Redis, OpenAI API, PDFKit.

ADDITIONAL PROJECT EXPERIENCE

MLM (Multi-Level Marketing) Software: .NET MVC / Node.js, React.js, SQL Server — JWT authentication, commission calculations, e-wallet integration, genealogy tree visualization, and admin panel.

Sociolife Online: .NET MVC, Entity Framework, SQL Server — mobile recharge, product shopping, referral bonuses, and withdrawal management.

E-Commerce Platform: .NET MVC, SQL Server — admin panel, vendor management, and inventory control.

Hotel Room Booking System: .NET MVC, SQL Server — online hotel room booking and user-friendly interface.

Employee Management System: .NET MVC, SQL Server — attendance, leave applications, payroll management, and admin panel.

School ERP System: .NET MVC, SQL Server, AJAX — admin, school, and employee portals with student, attendance, and exam modules.

Logistics (Courier) System: .NET MVC, SQL Server, AJAX — delivery tracking and mobile applications for customers and delivery personnel.

EDUCATION

B.Tech, Computer Science & Engineering | Integral University, Lucknow | 2012–2016 | 75%

LANGUAGES

English, Hindi
